**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1 – 43 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Petite, Chuprun, Larsson and Gatherer either alone or in combination fails to teach wherein each working component in the local cluster itself initiates determination of an initial best path to the area control module without any prior knowledge of the area control module; each of said receiving transceiver modules making a decision as to whether to re-transmit said message based on a determination of whether the transceiver module is on the best path between the transceiver module from which the message originated and the area control module; re-transmission of the message continuing along said best path until the message is received at the area control module.

Regarding claims 16, 30, 34, 36 and 37, the claims are interpreted and allowed for the same reason as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
